

## PRE-LOADED DOUBLE DOOR WALL BOX

Our double door wall boxes can be supplied fully loaded with adaptors and pigtails ready for the installer to take to site. There are a diverse range of adaptor and pigtail types available to suit most applications. The double door feature allows independent secure access to both incoming fibre cable and patching areas of the wall box.

### FEATURES

- 2 x Cable entry points top and bottom
- Patch cord entry or exit top and bottom
- Includes two separate unique locks for security
