# WALL BOXES - ST SINGLEMODE - 16 FIBRES

This range of terminal boxes can support the connectivity of up to 16 fibres and is ideal for out of cabinet applications. Adaptors are securely mounted into the housing of each unit and there are three supporting 20mm cable gland knockouts that can be used to secure incoming cables. Each box is supplied with a cable gland and bunny clips. The integrated retaining lip on the lid coupled with securing screws, ensures the installation is fast and secure. Keyhole apertures enable easy wall mounting.
